Why Metamark Etch Effect Vinyl?

Metamark manufactures a range of etched glass effect films offering a superb choice of authentic finishes. Whether you're applying wet or dry, for total coverage or cut and applied detailing, Metamark's proprietary solvent adhesive system ensures sparkling results without a trace of adhesive visibility. Metamark etch glass effect films have a 'Class B' European fire classification [BS EN 13501-1:2007].

Creative Vision from Metamark

Retail signage applications, corporate identity and privacy screening, the Metamark Etch Effect Vinyl film range offers a realistic, high quality, cost effective replacement for traditional acid etching or sandblasting methods.

FROST

Metamark Frost provides an authentic acid etched glass effect suitable for many glass decoration applications. Frost is a cost effective solution for covering larger areas such as office partitions or creating partial privacy within pubs and restaurants.
